\*Auto refill on both sides

Electrical: All are 3-wire, single phase, 60Hz.

Plumbing: Brewers are supplied with a BUNN EasyClear® water filter model 120-CP (product no. 30045.0000). The filter and brewer must be connected to a cold water system with operating pressure between 20 and 90 psi (138-621 kPa) from a ½" (13 mm) or larger water supply line. Install a regulator in the line when pressure is greater than 90 psi (621 kPa) to reduce it to 50 psi (345 kPa). The water inlet fitting is ¾" (10 mm) OD male flare.

**Drain:** The brewer has a ½" (13 mm) hose barb fitting which must be connected to an unrestricted drain.

**Physical:** This brewer is for use on a sturdy counter at least 26" (66 cm) deep, 23" (58 cm) wide, with at least 50" (127 cm) above the counter to allow adequate space for filling the hoppers. The brewer weighs approximately 220 lbs (99 kg) with both ground coffee hoppers, water tank, and waste bin full.

All dimensions shown in inches.
